

## **US 441 Corridor Small Area Plan – Vision Statement**

Draft for Advisory Committee Review 12.21.07

Jackson County, its citizens and business owners, and the Eastern Band of Cherokee Indians have come together to develop the US 441 Corridor Small Area Plan. The focus for this planning process is sustainable development – measured by environmental stewardship, economic prosperity, livable transportation, and the preservation of rural areas and scenic natural surrounding – that reflects the community's unique character and local values. The success of this planning process will be defined by its implementation, and we charge our elected officials with making the document's core vision a reality.
